

Tex-Mill

Single Jacket Mill Discharge Hose

A lightweight, general purpose hose designed for open-ended discharge service where an economical, lay-flat, 150psi hose is required.

Features and Benefits include:

- Lightweight, open-ended mill discharge hose designed for water transfer and washdown service ideal for the industrial, oilfield, marine and construction markets
- Hose is marked at the halfway point for quick roll out and cutting if shorter lengths are required
- 300 psi acceptance test / 150 psi working pressure

WARNING:

Not recommended for use as a Fire Hose.
