

Tex-BEVEL

BEVELED EDGE SKIRTBOARD

TEXCEL

General Properties and Applications

Premium-grade skirtboard with high abrasion resistance and a specially designed 45° beveled edge for improved sealing between belt and skirtboard. Provides superior spill control on systems handling fine materials.

Texcel's manufacturing process guarantees consistent gauge, width and quality unlike extruded products. Packaged with three binding straps to keep rolls in tact and prevent telescoping during shipping, storage and handling. Roll sizes are clearly marked for easy identification.
