

Tex-PROTECT SHAKER SCREEN PROTECTOR

General Properties and Applications

Protects shaker screens by preventing metal-against-metal deterioration by absorbing shocks caused by materials falling on the screen. Also serves to keep the screen cloth in place. Easy-to-use boxes include 100' of Tex-PROTECT.

Technical Data

Durometer	60 +/-5
PSI	1,300
Temperature Range	-25°F to +175°F
Composition	Abrasion-resistant SBR/GUM
Standard Packaging	100' per box

Profile	Size	Part Number	Feet / Box	Lbs / Ft (approx)	Dimensions			
					A	B	C	D
