## TEX-SUPERSLAB-10

Heavy Gauge 60 Duro Neo Slab

### General Properties and Applications

Commercial grade neoprene product offered in 10' slabs. These slabs lay flat, rather than curled, to ensure precise cutting, especially on water-jets and flash cutters. In addition, these flat slabs allow fabricators to reduce cutting, handling, and fabrication times because there is no need to wait for the product to flatten. The 10' lengths are perfect for stripping into even foot lengths, thereby reducing waste. The size also makes them easier to handle than typical rolled products. Used for machinery mounting pads, wear strips, shock pads and other applications where medium oil -and ozone-resistance is required.

#### TECHNICAL DATA

Durometer	60+/-5
Color	Black
Temperature	-22°F to +176°F
Tensile Strength	1,000 psi
Elongation	250%

Width	Gauge	Part Number	Ln. Ft./Slab	Sq. Ft./Slab	Lbs./Slab
48"	1"	SLAB-10-32	10'	40	270
